

The International Association of Lions Clubs Insurance Products

Darling Insurance Realty Limited has been providing Lions Clubs with insurance products for the past sixteen (16) years. While Lions International provides member clubs with a basic Commercial General Liability Policy, our products can provide coverage that otherwise may not be available on the Lions Master Policy.

We offer Commercial General Liability including Host Liquor Liability Coverage, Club Paraphernalia, Office Contents, Tenants Improvements, Crime Coverage, Fidelity Bond, as well as coverage for property items such as food trailers and barbecues. For those clubs who own their own building, we can also offer a property policy that is written in conjunction with our liability products. Both the liability and property products are underwritten by the Dominion of Canada General Insurance Company. Likewise, we are also able to offer automobile policies to properly insure any automobiles or trailers that a club may own.

In addition, we offer Non-Profit Directors & Officers Liability Insurance, underwritten by Sovereign General Insurance Company. Club Directors and Officers have assumed a responsibility to the club and its members, to represent their interests in a prudent manner, and to direct the club's business and affairs according to applicable laws and regulations. In performing these responsibilities, there are basic duties that must be upheld: Duties of Honesty, Loyalty, Obedience, Skill and Diligence. This coverage protects board members, individually or collectively, and agrees to reimburse the officers and directors for amounts they are legally obligated to pay for claims made against them for wrongful acts including the costs of defending any such claims. Wrongful acts are usually defined as meaning any breach of duty, neglect, error, misstatement, misleading statement, omission or any act done or wrongfully attempted.

We have partnered with Corner Robbins Investments & Insurance Ltd., agents for Assanté Financial Management Ltd., and now have available an Accidental Death & Dismemberment Program designed especially for Lions Club members. This product provides coverage to members while they are engaged in Lions Club activities or associated projects.

If your club is interested in pursuing a quotation for any of these products, please contact our office for an application.
